

COLVILLE

COMMUNITY HEALTH TRUST

In November the Trustees met to evaluate the current Strategic Plan for the Trust, and to look at ways it could be updated to guide us through the next few years. The statement of Vision remains unchanged, “A strong, healthy, vibrant, safe, supportive and knowledgeable community, that is self-reliant”, but the wording of the Mission Statement will change to “ *To support the provision of health and wellness-focused services and facilities, which meet the needs of Northern Coromandel, that are holistic, accessible, people-friendly, sustainable and progressive.*” This change reflects the collaborative role the Trust takes in the provision of services in the entire Northern Coromandel region, not just in Colville.

Key goals of past years remain. The Trust continues its participation in The Colville Project with two Trustees from the Health Trust also acting as Trustees on the newly registered The Colville Project Charitable Trust. Health Trust fundraising will remain focused primarily on raising money for infrastructure. New goals include attaining a higher level of Treaty of Waitangi awareness and understanding as an organisation, a focus on financial sustainability of the Trust, and a commitment to engage with community groups, funders and training organisations that can help advance the Trust’s mission.

Happy New Year to you all. We wish you health and happiness in the coming year.
