

COLVILLE

COMMUNITY HEALTH TRUST

Hello everyone,

I hope everyone has been enjoying the glorious sunshine we have had, it has certainly made for a wonderful summer so far with lots of visitors coming to enjoy what Colville and Beyond have to offer

A Huge Thank You to all involved in getting the generator installed at the Colville Community Health Centre. The Generator was 1 of 3 purchased for the community thanks to a grant from MPI. The installation of the generator means that the Colville Community Health Centre can continue to operate if there is a power outage which is essential for our community.

The Coromandel Family Health team are here on Monday, Wednesday and Friday each week, 9am until 4.30pm. If you had previously used 'Manage my Health' talk to the team about MyIndici, an online tool where you can access results, request repeat prescriptions and make appointments. You can call on the original Clinic number 07 866 6618

We had a very successful F.A.S.T training with the Students & Staff at Colville School presented by Dr Kate, Jay and Sammy along with St John team members. The students worked on presentations that delivered the F.A.S.T message, there were some excellent posters and videos presented at the Schools end of year celebration where the F.A.S.T message was delivered to Whanau and friends. Thank you to the Stroke Foundation

The F.A.S.T. campaign encourages everyone to learn the key signs of stroke and to think F.A.S.T., act fast and look out for each other by calling 111 if they suspect a stroke. Prompt action can save lives - as well as improve recovery.
